

My warmest greetings to everybody!!!

On behalf of the PPS STC officers and board of directors I welcome you all to the PPS STC website. It is our objective that thru this website we will be able to reachout to our members the activities, important announcements, and also accept suggestions and recommendations and reply to certain important issues.

This term's theme "**Kapit Kamay Para sa Kinabukasan ng Kabataan**" is aimed to join forces with government and non government organizations, Department of Health, Department of Education, other medical societies and organization and subspecialty societies for the attainment of our mission vision.

Also aligned with the vision of the World health Organization to implement its Millenium Development Goals specifically its 4th provision which is to reduce the infant and child mortality by 2/3 up to 2015 and the fifth provision which is to reduce the maternal mortality PPS STC will join the multisectoral initiative to achieve this gigantic task and endeavor.

We have lined up many CME, child advocacy, community service activities and I appeal for your support and voluntary participation in our various projects. We will be closely monitoring members attendance and arrears to maintain good standing and we are firm that we will purge from the roster of membership the delinquents members.

Likewise, I would like to remind our members of their annual dues and mutual fund of P2,500 for 2007 and 2008 for our PPS STC office. By July 2009 we hope to move in to our new office at Canyon Ranch in Carmona Cavite.

May God bless you all!!!

REGENTE IMPERIAL-LAPAK,MD,FPPS
